### Major Function:

To oversee the development and implementation of manufacturing processes to maintain proper product functionality as well as cost efficiency; ensures the engineering team and other manufacturing departments work together cohesively and is responsible for the development.

Develop processes and methods to manufacture new products and for the use of new equipment. Influence the use of automation, sensors and planned maintenance.

## **Major Responsibilities:**

Support the continuous improvement efforts by facilitating the C.I. team in the review, approve/reject, prioritize, schedule, and implementation of suggested improvement projects for the benefit of JSC, it's employees, and it's customers.

Develop safeguarding solutions to issues. Also ergonomics considerations should be addressed with all new and revised processes to comply with local, state and federal regulations

Utilize tools and techniques to identify and quantify improvement opportunities, and to assist others in the development of their C.I. requests. Reengineer processes. Select processes to rethink how they can be simplified, standardized and minimized. Ignoring what is, and concentrating on what should be.

Develop automation systems and processes for new products as they are identified. Assist in the Planning and implementation of such systems.

Provide a liaison between Design Engineering and Manufacturing as needed to ensure that new processes are implemented with new product requirements, to avoid surprises when a part gets to manufacturing that cannot be processed with normal methods, causing delays and cost overruns.

## **Qualifications:**

Bachelor's Degree in Manufacturing, Mechanical, or Controls Engineering, or other closely related discipline  
Five years' experience leading a manufacturing engineering and maintenance organization in a manufacturing environment

Possess strong industry and technical knowledge and experience in metal forming, assembly, automation, and controls.

Position requires an individual with the technical knowledge and capability to garner respect, and provide leadership, within a highly technical and skilled field.

*If you desire the chance to make a difference and to work with great people who value teamwork, challenges and the ability to impact the future of the company, Please send your resume to Jagemann Stamping Company, 5757 West Custer Street, Manitowoc, WI 54220.
