Major Function:

To coordinate and provide utility support areas such as; material handling, packaging, shipping and receiving. To facilitate the movement of work-in-process and finished good inventory with its related transactions and inspection activities. Create a team environment that fosters safety, innovation, continual improvement, and quality-driven processes.

Major Responsibilities:

Operate equipment needed for the movement of incoming and outgoing materials, work-in-process and finished goods.

Process accurate transactions as per applicable job instruction in a timely manner.

Coordinate and support work-in-process parts to proper area as per routing operations. These areas include; incoming inspection, packaging system input queue, machine area, non-conforming, and finished goods inventory.

Disposition and process non-conforming product per quality standards and job instructions to ensure non-conforming product does not ship to a customer, including creating and updating check sheets.

Identify and locate parts to be forwarded to plating or heat treating service suppliers. Involves a review of outside service parts queues and the determination of pending due dates from the move ticket.

Effective storage and retrieval of materials. Involves the use racking and floor locations to optimize the available space with the least handling possible and first-in first-out turn-over of materials. Includes the entry of all related inventory transactions.

Support team-building activities. To include regular attendance at team meetings, active participation in team activities such as problem solving, process improvement and process development teams.

Perform incoming, in process and final inspections as per applicable quality standards and job instructions.

Support tasks as required to address peak workloads or personnel absences. May require fill-in on a temporary basis in any area of the department.

Equipment/communications- Communications will involve the use of computer, radio frequency scanner, fax, and telephone.

Responsible for cleanliness and neatness of surrounding area in addition to exercising the performance of all duties according to safe operation procedures in order to avoid creating an injury hazard for self or others.

Other duties as assigned by supervisor for additional experience and/or training or refinement skills or in preparation for advancement.

Participates in JSC's Continual Improvement Process.

Occupation includes a requirement to follow EHS procedures.

Education and Experience Requirements:

EDUCATION: Requires the ability to read, write and make calculations

EXPERIENCE: Preferred 1-2 years in an industrial or service industry, but will be trained on the job.

\$14.53 to \$19.66 with Monthly Team Leader Bonus

This is a second shift position. 2:00 pm to 10:00 pm
