

# JAGEMANN Precision Face Shield

## Protection... ...You Demand.

- Providing all around **protection** for a wide variety of industries, face shields are vital in any task that may involve hazardous liquids or aerosols.
- With electrical resistance, chemical resistance, and heat resistance up to 230 degrees Celsius, our face shields can withstand even the harshest and most demanding work environments.
- **Made in the USA** with the highest quality materials for maximum comfort.
- With a color consistent clarity finish and non-yellowing treatment, you maintain a perfectly clear view while wearing it.
- A shield thickness designed to ensure **protection** while still feeling lightweight and allowing easy mobility.
- Available in Full Length (9.5") to meet all of your needs.

*Reduce risk* of exposure with *protection* of critical zones.

- Designed with healthcare in mind, these face shields allow for the continued wear of other necessary PPE such as masks underneath the face shield comfortably.
- Face shield material PET-Amorph is 100% recyclable, making it a good choice for your workplace and the environment.
- Smooth edges, a Velcro adjustable-fit headband and non-abrasive materials ensure both safety and comfort.
